EDUCATION

New York University, Leonard N. Stern School of Business — **New York, NY**
Anand Khubani B.S. in Business, Technology & Entrepreneurship; B.A. in Mathematics — *Expected May 2029*

- **GPA:** 4.00/4.00 **| Relevant Coursework:** Data Structures, Intro to Marketing, Entrepreneurship, Info Tech, Foundations of Finance
- **Honors**: 1st Overall--BTE x Microsoft AI Hackathon (2026); Design Award--BTE Product Design Sprint (2025); Dean's List

Lexington High School — **Lexington, MA**

- **GPA:** 4.00/4.00 **| SAT:** 1590 (M:800 RW:790) **| Relevant Coursework:** AP Comp. Sci. A (5), Adv. Computer Programming
- **Dual Enrollment:** Harvard Univ. Extension School **| Activities:** VEX Robotics (World Championships Qualifier & 1st Seed)

PROFESSIONAL EXPERIENCE

Supafone.ai — **New York, NY**
Product Manager — *Jul 2026 – Aug 2026*

- Led go-to-market launch of Supafone's mobile app on iOS, using Agile/Scrum management to organize marketing, engineering goals
- Performed competitive analyses on 30+ companies to inform Jira roadmap and PRD, reducing planned features and OKRs by 50%
- Refined onboarding flow and user journey for API and SDK products using A/B testing, leading to a 30% reduction in new user churn

Global Key Advisors — **New York, NY**
Data Analyst Intern — *Mar 2026 – Jul 2026*

- Cleaned and structured SEC filings data with Python for training of Retrieval-Augmented Generation (RAG) LLM tool for internal use
- Automated a HITL data processing pipeline for financial funding data using Claude Managed Agents, cutting processing time by 80%
- Designed end-to-end evaluation model with 250+ criteria in Excel to quantify startup outcomes for Cleantech Open predictions project

Stern Program for Undergraduate Research (SPUR) — **New York, NY**
Data Analyst, "Venture Capital Valuation Dynamics Around Fundraising Activity" — *Feb 2026 – May 2026*

- Engineered an interactive data visualization dashboard in Python/Matplotlib, enabling cross-feature analysis across 2.4M+ data points
- Aggregated, cleaned, and analyzed raw PitchBook data on 1.1M+ companies to investigate patterns in self-reported fund performance
- Presented weekly hypotheses to faculty advisor, refining methodology and testing how valuations move around VC fundraising rounds

SELECTED PROJECTS

Simpli | *iOS, Swift, TypeScript, SwiftUI, WebKit, Xcode, DOM Manipulation, Git* — *Fall 2026*

- Shipped Simpli, an iOS app that hides short-form content from Instagram and YouTube while keeping core functionality, to TestFlight
- Audited the inherited NoScroll codebase and fixed user-facing bugs, including visual glitches and outdated IG element-blocking rules
- Redesigned user experience, implementing native Liquid Glass user interface and simplifying feature offerings to minimize visual clutter

Toki | *Arduino, IoT Systems Design, REST APIs, Embedded C++, IMU Odometry, PostgreSQL* — *Spring 2026*

- Built Toki, an IoT/AI-enabled virtual pet on an Arduino UNO R4, owning scoping, feature design, prototyping, and testing end-to-end
- Implemented core engagement loop around physical challenges verified by the onboard IMU, tying daily pet care to real user movement
- Developed Supabase (PostgreSQL) cloud backend that syncs pet state/user activity over REST APIs, tracking progress across sessions

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Beta Alpha Psi Mu Chapter — **New York, NY**
Product Management Workshop — *Oct 2026 – Present*

- Responsible for leading end-to-end development of Candidate Portal iOS app, including user research, ideation, prototyping, and launch
- Accepted as 1 of 9 mentees into inaugural workshop cohort covering technical product management skills and professional development

NYU Stern Product Management Club — **New York, NY**
Product Team, Mentorship Program — *Oct 2025 – Present*

- Applied human-centered design to pitch a UX overhaul for Empowered, conducting 10+ user interviews to map pain points and friction
- Competed in a national Salesforce case competition, pitching a strategic pivot and features roadmap to drive SaaS growth in the AI era

NYU Stern Business Analytics Club — **New York, NY**
Data Analyst, Freshman Liaison Program — *Oct 2025 – May 2026*

- Analyzed open-source data on churn in the telecom industry, focusing on identifying unexpected trends and underperforming services
- Built 4 Python models to discover and visualize relationships between profiles, services, and churn, investigating key drivers of outliers

SKILLS & INTERESTS

- **Languages:** English (native), Mandarin (conversational), Latin (intermediate) **| Programming:** Python, R, JS/TS, Java, C++, C, SQL
- **Competencies:** Miro, Jira, Tableau, Figma, PitchBook, Crunchbase, Supabase, Excel/PowerPoint/Word, Claude Code, CSS/HTML
- **Interests:** Swimming (1650/1000Yd Freestyle), Hiking, Boston Celtics, Settlers of Catan, Calligraphy, Watercolor Painting, Robotics
